

# VIDEO LARYNGO SCOPE

BF-DP

## **versatile applications.**

Various disposable blades for MAC, MIL, and Difficult Airway.

## **Simple documentation.**

Capture images and videos with one-button operation.

## **User-friendly operation.**

Anti-Fog Camera, mini HDMI output for training.

**long-lasting Battery**

Integrated battery with more than 120-minute runtime. Rechargeable.

**training conditions**

Mini-HDMI for live streaming to an external monitor and USB-C for file transfer to a computer or laptop. Perfect for training purposes

**simple documentation**

Document the intubation with the integrated memory card, which stores over 400 video recordings or more than 3 million images.

**versatile applications**

Great flexibility with a wide range of disposable blades for different patient groups. MIL 0, MAC 1, MAC 2, MAC 3, and MAC 4, as well as a specialized blade for difficult intubations (Difficult Airway).

**user friendly operation**

Easy to use with its integrated touchscreen. Adjust illumination, contrast and color management

**designed for right- and left-handed users**

Enabled by clear and central arrangement of the screen

**high-quality materials**

Monitor and handle are made from a special aluminum alloy, ensuring a high-quality feel and easy cleaning and disinfection.

**HD camera**

With excellent resolution of 1280 x 720 px

## available configurations.

the video laryngoscope BF-DP is available in two different sets: one for adults (MAC) and one for neonates (MIL). Handles are also available separately, allowing users to complete the other set and cover both patient groups.

**MAC Version**

**MIL Version**

## components & consumables.

3.5" Touchscreen Monitor

MAC Handle for MAC 1 -  
MAC 4 & DMA

Neonate Handle for  
MILO blade

MIL 0  
MAC 1  
MAC 2  
MAC 3  
MAC 4  
Difficult  
Airway

## technical specification.

Parts	Description	Technical Index
Monitor	Screen	3.5" Touchscreen
	Resolution	960 x 640 (RGB)
	Viewing angle	> 70°
	Power	< 3W
	Rotation angle Left/right Front/Back	270° - 270° 190 - 190°
	Connectivity	Mini HDMI simultaneously
Camera	Illuminance	> 150 LUX
	Resolution	1280 x 720
Blade	Waterproof	IPX7
Image / Video Function	Image / Video function	Yes (with playback)
	Output	USB-C to Computer
	Memory Type	MicroSD 128GB
Battery	Battery Type	Recharchable Lithium Battery
	Capacity	3.7V / 1450 mAh
	Lifecycle of battery	approx. 500 times
	Battery working time	> 120 minutes
	Charging time	< 2 hours
	Port	USB-C
